League News

Eddie Hughes, MP for Walsall North was on hand to open a state-of-the-art third generation (3G) artificial grass pitch (AGP) for Sporting Khalsa Community Facilities Ltd. in Staffordshire recently (Saturday 14 July). Their new facility, at the Aspray Arena in Willenhall, was made possible thanks to investment from the Premier League & The FA Facilities Fund – delivered by the Football Foundation.

Staffordshire and Birmingham FA Chief Executives Adam Evans and Kevin Shoemake also attended the official opening of the new all-weather pitch, which took place during a pre-season friendly between the site's main user, Step 5 club Sporting Khalsa FC, and Hereford FC. They were able to take advantage of the brand new pitch, which has been upgraded from the grass stadia pitch. The original surface was prone to 'cutting up' during matches.

Sporting Khalsa Community Facilities Ltd., which was set up by a group of friends at a local Sikh temple in 1991, received the investment to help replace the existing pitch with the new 3G AGP. They have also been able to perform other works, such as improving the existing floodlights.

The new facility provides a more reliable, consistent surface during training and matches, and can be used all-year-round. This will improve scheduling flexibility and reduce the risk of match cancellations due to bad weather. Sporting Khalsa FC's players, including three women's sides and its first team in the Midland League Premier Division, are set to benefit from this along with a range of other users.

In addition, the new surface provides a state-of-the-art venue for Walsall FC to deliver player development sessions. Users also have access to five small-sided 3G AGPs and changing provision on-site, as part of the Black Country Performance Hub. The facilities, with the addition of the full-size AGP, will help to grow local community football.

Sporting Khalsa Community Facilities Ltd. were awarded a £579,564 grant from the Premier League & The FA Facilities Fund towards the project. They also received £75,000 from Sport England. The organisation worked alongside the Football Foundation and the Staffordshire FA to compile a five-year Football Development Plan, which is a vision of how sport will be played on site with an emphasis on increasing participation.

Across users, it is hoped that the upgraded surface will support the creation of 42 new teams – a number of which would be within Sporting Khalsa FC. The club hope to grow from their current 17 teams to a total of 24, with new sides in a range of age groups. This will help the club to provide a complete player pathway, for both male and female members.

A boost in overall football participation of 291% on-site is predicted as a result of the new teams. Improving provision for the local women's game is also a key aim, with Sporting Khalsa FC's Ladies senior team currently in the FA Women's Premier League Midlands Division One. Hopes to establish a number of new girls' teams, from the Under-7 level upwards, also supports the expected growth in football participation.

Since 2000, the Football Foundation Funding Partners' investment has provided **210** grants worth **£16.1m** towards grassroots sports projects worth **£30m** across the whole of **Staffordshire**.

Paul Thorogood, Chief Executive of the Football Foundation, said: **"Grassroots sport plays an important role in communities across the UK, creating opportunities for people of all ages and backgrounds. That is why I am**

delighted that Sporting Khalsa Community Facilities Ltd. has now opened their state-of-the-art 3G AGP in Willenhall, thanks to investment from the Premier League & The FA Facilities Fund.

“Continuing to improve access to high-quality facilities like this one is a key aim for the Premier League, The FA and the Government. Delivered by the Football Foundation, their funding supports projects for clubs and organisations all over the country and is helping to boost the number of people benefiting from sport through better facilities.

“Grassroots football provides so many benefits for members of the community, not least of which is the opportunity to enjoy themselves. Love for our national game, something that can be found across the country, is an integral part of what drives the Foundation and its Funding Partners to keep increasing the standards and quality of our facilities.”

Charles Johnston, Sport England Property Director, said: “Sport England are proud to invest National Lottery funding in creating this wonderful facility which will enable more people in the local community to enjoy the benefits of being active the whole year round.”

Aspray 24 Chairman Patrick Laight (centre), unveils the new facility at the Aspray Arena alongside Eddie Hughes MP (left), Staffordshire FA Chief Executive Adam Evans (centre left), Birmingham FA Chief Executive Kevin Shoemake (centre right) and Sporting Khalsa FC Chairman Rajinder Gill (right).

Racing Club Warwick	v	Pegasus Juniors
South Normanton Athletic	v	St Andrews

Stoke City's young guns edged a very poignant pre-season friendly 0-2 away at Hinckley's Leicester Road FC in memory of former coach John Perkins.

Two moments of magic from the Potters' talented Academy youngsters early in the second half ensured it was they who raised the John Perkins Remembrance Plate at the end of a highly entertaining game that 'JP' himself would have enjoyed.

The match was organised by LRFC manager Neil Lyne, who first played for JP in 1987 (aged 17) at Leicester United FC and then made the move with him to Brian Clough's Nottingham Forest in 1989.

After 10 years at Forest, JP spent 10 seasons at Wolves FC, followed by shorter stints at Derby County and Portsmouth before settling in at Stoke City as senior Academy coach in 2011 and becoming a firm favourite there too - before his life tragically ended, aged just 69, in October 2016.

With JP's son Ben Perkins fittingly starting the game in goal for LRFC (first 30 mins), the first half was nip and tuck all the way. LRFC's centre forward Matt Langham has the home team's first clear cut chance on 32 mins - attempting to lob the keeper when clean through, but he just got fingertips to it and was able to claim again. 0-0 at HT.

The home team also started the second period well with flying forward Amarvir Sandhu close on 50 mins, but the away keeper makes a great save, just pushing it wide for a corner. But a minute later Stoke took the lead after intricate link up play down the left saw the ball crossed in and Stoke forward Moussa Niakate showed magical feet to strike the ball past LRFC keeper Will Highland.

On 53 mins Stoke's keeper was the hero again when a 25-yard strike from Sandhu was well saved low down to his right, but from the resultant counter attack a thunderbolt from Niakate, cutting in from the left, positively fizzed it into the top right-hand corner to make it 0-2.

The visitors managed to see out the rest of the game, despite a few half chances for LRFC, but football was the winner on the night - along with the memory of a man who developed so many youngsters in a stellar career spanning grass roots football, non-league and 26 years in professional youth/senior coaching.

Hinckley's Leicester Road FC have signed up a hugely experienced quartet for the new season – all used to playing at a higher level and with ambitions to do likewise with LRFC!

Danny Carey-Bertram is a former Hereford United, Cambridge United, Forest Green Rovers, Bath City, AFC Telford and Worcester City striker no less – and a real fox-in-the-box.

He's been a prolific goal scorer at every club he has played for and Leicester Road manager Neil Lyne will be looking for him to continue finding the net regularly, as well as helping LRFC's younger strikers become better players in all aspects of their game.

Neil Lyne has also secured the signature of dynamic central midfield lynchpin Marlon Walters, beating off a number of clubs playing at a much higher level and offering considerably more in terms of incentives.

Marlon is no stranger to Leicester Road having featured for Hinckley United until their premature end in 2013. His career started as a trainee at Wolves FC and Marlon has since starred for and won promotions with the likes of Redditch United, Hednesford Town, Chasetown FC, Bedworth United, Halesowen Town and Highgate United.

Commanding centre half Simon Alcott bolsters Leicester Road's defensive ranks having played over 100 games for Quorn FC in Midland Football League Premier Division.

Neil Lyne has tracked him for the last three seasons, but an injury lay off coupled with a change of manager at Quorn has enabled Neil to convince Simon that Leicester Road is not only the right place for him, but also a club on a mission.

Last, but not least, former LRFC fan favourite and resilient defender Nick Hawkins rejoins the club. He still has the qualities as a player to improve the team this season, plus as a disciple of Leicester Road's free flowing, controlled football philosophy will help support Neil both on and off the pitch.

Neil and Nick kept in touch throughout last season and Nick made no secret of his desire to return to Leicester Road - even whilst starring for Long Eaton in the Midland Football League Premier Division and then helping Dunkirk win the East Midlands Counties League and promotion to the same division.

South Normanton Athletic have been rocked by the departure of manager Tom Leighton.

Below is a statement from Tom Leighton.

It is with a heavy heart that I have today decided to step down from my position as manager of South Normanton AFC. The demands of the midland football league and the costs to successfully run a football club at this level mean that it is very difficult to fund raise, run a team and still find time for my young family. Year on year we achieved something at SNAFC but it is getting harder and the new manager needs to focus solely on football. I will not be leaving the club but will instead take a step back to help concentrate on commercial management for the club as part of the committee to ensure all the hard work that has gone in over the past 4/5 years isn't undone. The current player costs and traveling expenses are so demanding in the MFL and to maximise the potential of SNAFC the manager needs a clear head -I hope that in my new role, I can provide this climate for the new manager.

I want to take this opportunity to thank all past and current players and back room staff. Thanks to the chairman and committee for the opportunity to manage a great football club. A special thanks to my boss at work Mike Robinson who has been sponsoring the whole thing from the start to present time.

Finally, massive thanks to my partner for putting up with the texts, phone calls, mood swings etc !! Thank you to all the back room staff, Thom Kellogg, Kev Bunting and Pete Rowland you've been brilliant and I couldn't have done it without you. 

Mark Stryzewski has been handed the managerial position and will take charge for the opening game of the season at home to Westfields.

Future Pro partner with Warwick and start new academy at the club

Racing Club Warwick are delighted to announce they will be working in association with Future Pro Academy at the start of this new 2018 - 2019 season.

Future Pro Academy have moved from their previous base at Stratford Town and this opportunity has accelerated Warwick's plans to start an academy programme which is exciting times for the club.

Chairman Gary Vella said 'Starting an academy at the club has been in the plans from the first day I came on board and the previous three years have seen us research the options we have. Choosing the right framework for the club is vital to make an academy a success and we have spoken to several education providers, as well as researching whether the club should run the football side itself, or whether we should partner with an expert in the field. The fact that Future Pro were looking for a move proved to be perfect timing for all parties and ensures that we have the best possible outcome for both the educational aspect alongside the additional football pathway now available to local footballers. The academy, of some 60 learners, adds to our youth team pathway and will give young adults the best opportunity to progress in the game moving forward'.

Future Pro Managing Director, Demir Vavan said 'The support we have received in our transition has been excellent and we are looking forward to working with Racing Club Warwick, working with Chairman Gary Vella who has done an excellent job in recent years reinvigorating the club. Our aim is to provide 16-19 year olds the best opportunities and pathways in the football and sports industry'. The club will be entering a team into the prestigious U19 National League which will help bridge the gap for players to progress into Racing Club Warwick's first team and additionally we will have teams competing in the ECFA National college leagues'.

Demir continued 'The players will have access of up to 10 hours' football development each week which ranges from UEFA licensed training, matches, performance analysis and individual learning plans off the pitch including access to high quality gym facilities providing all full-time student athletes the best opportunities to progress in the industry'.

All students are enrolled onto a 2-year BTEC level 3, Extended Diploma in sport which is the equivalent to 3 A levels. SCL – education & training are the academy's partner who delivers the education programme at Warwick Sports Club. There are excellent opportunities and pathways on this programme including access to scholarships abroad in the US via the academy's network and further education including UK universities and work experience in the sports industry.

So far already in their first year Future Pro Academy have progressed former first year Scholar Dan Purvin into professional football at Mansfield Town FC and have links to send players abroad to top US universities on scholarships next year

Preview

Premier Division

At the start of the season, making predictions is an almost impossible task. Every clubs will start with hopes and dreams for the season – on paper, many of them have strong chances.

It is all change at the CKW Stadium as **AFC Wulfrunians** start the campaign under the new management team of Darren Goodall and Richard Brown. There are plenty of new faces on show and pre-season results give a sense of optimism after last season's 17th place finish.

Boldmere St Michaels finished 14th last term and with the majority of last season's squad returning, they will be expected to make progress up the table.

Coventry Sphinx were challenging near the top of the table throughout most of last season and with leading scorer Ryan Harkin signing on the dotted line for another campaign at Sphinx Drive, hopes will be high for a promotion push. Plenty of new signings too and there should be no shortage of goals.

Coventry United had a disappointing campaign and yet still finished in 8th place. United have been relatively quiet through the summer however the appointment of Kevin Thornton as club captain is a clear sign of their intentions.

Dunkirk return to the MFL after winning the East Midlands Counties League on goal difference from Anstey Nomads. Will Andrew has taken over as first team manager and has a squad that has been scoring plenty of goals in pre-season.

Highgate United just missed out on promotion last season and the appointment of former Bromsgrove Sporting boss, Paul Smith as joint manager with Ashley Pulisciano, sends a clear message that they do not intend to miss out again. The Gate have made some significant signings with the returning Lei Brown a major threat to other MFL defences.

Ilkeston Town finished runners-up to Walsall Wood in their debut season in MFL Division 1 and benefitted from the FA's re-structuring of Steps 4-7. Ilson produced some excellent football under Steve Chettle and with their phenomenal support, expect them to be challenging for honours.

Long Eaton United were one of the form teams in the second half of last season and with the addition of the Rugby Town leading scorers, David Kolodynski and Ruben Wiggins-Thomas, it would be no surprise to see Long Eaton making a challenge.

Loughborough University face upheaval every summer with players moving on from their University life and freshers being welcomed to the fold. They are always one of the best footballing sides in the division with a fantastic stadium. Leading scorer Joe Boachie will again give nightmares to MFL defenders

Lye Town are now under the tutelage of Andy Wyton and there has been a summer of change at Stourbridge Road. Leading scorer Jack Till remains, and he has been joined by Liam Hughes, a striker who scored 44 goals at Wolves Casuals last season, to form an impressive strike partnership.

Quorn are another side whose 2nd half of the season was a vast improvement on the first. Manager Carl Abbott rebuilt his squad, and this has been added to with the likes of Sean Geddes and Luke Barlone. Ryan Seal remains a key man and Quorn will surely have serious ambitions for the season.

Romulus join the MFL following relegation from Division One South of the Evostik league. The Roms have made the big move to a new ground in the summer and they will now be playing out of Castle Vale Stadium. Their side shows a mixture of youth and experience and they will no doubt want to regain their Step 4 status at the earliest opportunity.

Shepshed Dynamo finished 7th last season and had an excellent FA Cup run which included a 6-goal demolition of Step 4 Leek Town. The spine of last season's side remains and with 6 wins out of 7 in pre-season, there are positive signs for another successful season.

South Normanton Athletic have had a late change in management with veteran defender Mark Stryzewski taking charge on Tuesday. The Shiners finished last season in exceptional form, moving away from the relegation zone with no small thanks to the goals of former Football League striker, Marcus Tudgay. The MFL offers travelling challenges to the Shiners but they have the quality to improve on last season.

Sporting Khalsa return to the revamped Aspray Arena following their sojourn at Castlecroft. A new 3G pitch and enhanced facilities for both players and spectators should see Khalsa challenge for promotion. Ian Rowe has been busy with a number of well respected signings to enhance the majority of last season's squad.

Quentin Townsend has taken over the managerial reins at **Stourport Swifts** and has signed Mark Danks from Worcester as player / assistant manager. A number of new signings have settled in well in pre-season with Andy Nicol amongst the goals. Promises to be an exciting season at Walshes Meadow.

Walsall Wood proved irresistible in winning the Division 1 title last season. They scored 173 league goals, but manager Gary Birch has not rested on his laurels and has added experience all around the pitch. The signing of Dean Rathbone from Coleshill could be a master stroke if he gets back to his pre-injury form. One of the favourites for the title

Westfields finished mid-table last season which would have been a disappointment to all concerned. The return of Jamie Molyneux is a big boost and Fields have been finding the net on a regular basis in pre-season. Andy Bevan has a strong squad at his disposal and they should not be too far away at the end of the season

We welcome **Wolverhampton Sporting Community** to the MFL as the reigning West Midlands Regional league champions. Sporting finished a massive 15 points clear of Tividale to lift the title and reached the latter stages of the FA Vase. It has been all change at Pride Park in the summer with a change in management and a new look squad. Recent champions of the WMRL have struggled with the transition to the MFL and sporting will be hoping that they can buck the trend.

While **Worcester City** continue to face the challenge of relocating back to the city, on the field, things are continuing to look rosy. After finishing 4th last season, they will be targeting promotion. Leading scorer Dave Reynolds has re-signed, and the squad certainly has the credentials for a promotion push.

Fixtures

SATURDAY 4th AUGUST 2018

A F C Wulfrunians	v	Loughborough University
Boldmere St Michaels	v	Worcester City

Shepshed Dynamo	v	Ilkeston Town
South Normanton Athletic	v	Coventry United
Sporting Khalsa	v	Highgate United
Stourport Swifts	v	Wolverhampton S C

Division 1

With last season's top two promoted to the Premier Division, there are a number of clubs who will be confident of mounting a promotion challenge. The Division will run with 19 teams due to the late withdrawal of Smithswood Firs.

Atherstone Town finished 3rd last season and will be amongst the leading contenders for promotion. The Adders were one of 6 clubs to score over 100 league goals last season and leading scorer Alex Naughton is back for another season. The signings of James Dance and Josh Ruff from Rugby Town will add significantly to the squad

It has been all change at **Brocton** in the summer with a new management team and a revamped squad. Leading scorers Jack Edwards and Joe Hartshorne have moved on to pastures new and the Badgers will need to find a goalscorer if they are to challenge.

Cadbury Athletic flirted with relegation for a time last season but eventually finished 15th. Pre-season has seen mixed results with last season's leading scorer, Odane Barnes, already on the goal trail. Always good to watch, their mixture of youth and experience should see them making advances up the table.

Chelmsley Town finished a place below Cadbury making steady progress in their second season in the division. There have been plenty of goals at either end in pre-season, so Pack Meadow may be the place to visit for goals. Their aim will be to continue their year on year improvement

Coventry Copsewood had a mid-table finish last season but with a number of key signings, they will be expected to improve this term. Former Coventry United midfielder Jean Dakouri will add experience in the middle of the park while they will be pleased to have kept hold of key men Lawrence Rawlings and Danny Fraser.

It has been a turbulent summer at **Heath Hayes** with massive changes both on and off the pitch. Steve Cook has taken over as manager from Craig Brotherton and he has had to rebuild his squad with a number of players moving on. The strength of the club has been the development of young players and if this continues then expect plenty of excellent football at The Coppice Colliery Ground

One of the biggest signings this summer came from **Heather St Johns** with 75 goal striker Simeon Cobourne signing on for another year. Their squad look full of goals and the additions of Chris Cowley and Chris Lloyd will only strengthen a strong squad. Expect an improvement on last season's 7th place finish

Hinckley have a new home this season moving to The Welfare ground in Ibstock. A new home could be just what the doctor ordered as they look to improve on last season's 6th placed finish. They will have to do without 50 goal man Steve Hart who has moved to the Premier Division with Quorn. The signing of Sam Belcher from Rugby Town catches the eye.

Leicester Road finished fourth last season and will be expected to be challenging again. They have made some astute signings (as highlighted above) with experience at a higher level. The return of Nick Hawkins could be the key if they are to gain promotion. Everything points to it being a good season ahead

Lichfield City finished in mid table last season but with a successful academy, they can be expected to push on with the introduction of young players. The signing of Joe Hartshorne from Brocton is an excellent one he will be expected to contribute a fair number of goals. If he can back up the likes of Dan Griffiths and Tom Green, then Lichfield could challenge

Littleton are always a competitive side in Division 1 and expect no difference this season. A change in management has seen a change in direction with the emphasis being on signing local players. Last season's top scorer Danny Carter has moved on to league rivals Studley but in Ryan Reeves, the Ton Boys may well have a ready-made replacement

NKF Burbage have been a resounding success with 2 promotions in their 2 seasons since joining the MFL. Last season saw them pick up 4 trophies and gain promotion to Division 1. They are a side that have been together for some time and they are very much a team. Whether they can make it three promotions on the spin remains to be seen, but expect them to be very competitive in their first season at Step 6

Nuneaton Griff finished a lowly 19th place last season and it is not difficult to expect that to have been a blip as they should be capable of a top half finish. They have a goalscorer in Lewis Commins who helped himself to 19 last season in a struggling team and have re-signed former striker Luke Shorthouse to form a potentially lethal strike partnership

Paget Rangers enjoyed a successful first season in Division 1 and they make the move to Coles Lane, the home of Sutton Coldfield Town. The surroundings may be different, but the pitch will be similar, and this will suit the passing game that Jason Lanns' team try to play. Several key players from last season have moved on and it will be vital for Paget for other players to step up

Racing Club Warwick were well in the promotion mix last season until a backlog of fixtures finally caught up with them. They scored goals for fun last season and add to that the experience of Ben Mackey, and the Racers will be handful for all Division 1 defences. Pre-season has seen them record victories over a number of Step 5 clubs – expect them to go very close

Rocester drop down to Division 1 from the Premier Division and a close season of upheaval has seen Andy O'Connor take over as Head Coach and the majority of last season's squad move on. The club has been rebuilt both on and off the pitch and the future is looking brighter than it did at the end of last season. The early weeks of the season will give an indication as to what sort of season it will be

Stapenhill make the move from the East Midlands Counties League after finishing in mid-table last season. The Swans have a new management team with Richard Lonsdale taking the reins. Assistant Manager Richard Hanslow scored plenty of MFL Premier Division goals for Bardon Hill and will undoubtedly be a handful for defences.

There is a new management team at **Studley** with John Edwards the new man in charge. There have been a number of new signings not least Dan Carter from Littleton and Ross Dempster from Paget Rangers. Studley started last season like a train but eventually faded to a 9th place finish. With the squad additions made, expect them to be challenging again.

Uttoxeter Town impressed a lot of people with the quality of their football from such a young squad last season. Leading scorer James Curley bagged 29 goals last season and he could better that with a full season. With most of last season's squad in place again, expect Uttoxeter to progress from their 11th placed finish

Fixtures

SATURDAY 4th AUGUST 2018
