SEASON 22/23

ISSUE 2

Registrations

Where Clubs are experiencing issues with the WGS the MFL will accept temporary paper registration forms emailed to registrations@midlandfootballleague.co.uk at least 24 hours prior to the match taking place.

There are still too many instances of duplicate players in WGS, care must be taken when searching for players. Darren will be looking at these in more detail for next season. Please be reminded the MFL is now split MFL/MFL RFL. Players cannot sign for a Club in MFL RFL AND then play for a Club in MFL.

Clubs are reminded to check players' ID details very carefully.

Players in Premier / Division One require a signed registration form to be completed and retained by Club Secretaries.

Under 21's please be reminded of the maximum of three overage players allowed, the qualifying date is midnight on 31st August.

All Contract, Loans and International clearance players are to be sent to the FA at registrations@thefa.com and copied into me please.

All Transfer approaches and waiver correspondence must be via email, texts are not permitted as they do not have a date/time stamp.

It is important to check any suspensions as it appears there are many instances of players remaining suspended due to the missed matches not being put into the system.

A reminder that we need your opponent's Man of the Match and all goal-scorers to be entered onto FT. These count towards awards at the end of the season. Please enter own-goals conceded onto FT. Please ignore the message that a match hasn't been played, this is a known FA IT issue.

Please remember you have 72 hours to enter stats onto FT. If you have difficulties then please get in touch.

Match Officials

Step 5/6 are reminded that Match Officials are appointed and marked via MOAS.

MOAS provides all of the required information to a Club and if any Match Official changes their respective contact details such as phone / email etc. then the system will reflect any change as soon as the data is updated by the match official. This is then available through the portal. Clubs should log into MOAS for this information by going into their individual match portal and clicking on the 'people' icon.

Please then type MOAS and 50 dots(.) to alleviate the requirement to comment on a mark less than 60. This will let you continue to enter stats.

Non-Step 5/6 Clubs need to continue with marking of all 3 Match Officials as usual.

Please be aware we are experiencing difficulties in providing Assistant Referees for some matches. We appreciate this is causing issues but please be respectful of our Officials as they are choosing to officiate on the MFL rather than other local leagues. We are trying to recruit more numbers so if you have anyone in your Club who is a potential Referee, please contact your County FA.

Due to a known FA IT problem, Step 5/6 Clubs will still need to 'mark' the Referee in FT. We will not be using this mark so a mark of 1+1+1 = 3 is acceptable.

Hospitality & Programmes

The Board has re-introduced hospitality and programmes for this Season.

We are getting reports of poor or no hospitality being offered to opponents. Please remember to provide hospitality for home games and also to inform your host's when you might not be stopping after the game. Please report any poor or no hospitality to the League Secretary.

The minimum programme requirement for Step 5/6 clubs is a clearly displayed list of players.

Please retain your printed programmes and bring along to the next Clubs' SGM meeting.
